

Barrier protection for Everybody

Dental dams can be used as a barrier for oral sex and can be made from a condom!

theyeproject.org.au/resource/safe-sex/condoms-dams-and-gloves/

- **Check the expiry date on the packet**
- **Use a new one each time you have sex and for each kind of sex you have**
- **Water-based lubricants only - oil-based will break down the latex**
- **Keep in a Cool, dark place - cars, handbags, and wallets are not good for them**
- **Condoms and dams act as a barrier to reduce the risk of infections transmitted through sexual activity.**
